Busy day for us!!

This morning we drove Cliff to the Long Beach Airport to catch a flight on Jet Blue. He will be in Chicago on business till Friday.

Savannah had a dentist appt at Uncle Ned's in Manhattan Beach. He is a Pediatric Dentist. Savannah has four cavities. 2 are very minor but the other 2 we have been watching for a year and it really has grown.

So today she got 2 cavities taken care of. She was a real stinker when Uncle Ned tried giving her the shot to numb her gums. Savannah has a huge fear of needles. She was sore and not a happy camper after the procedure. I reminded her how important it was to brush her teeth and keep her teeth clean.

Uncle Ned said the next appt would be to take care of the other 2 bigger cavities. He said she would need to be sedated to relax her and make it easier for him to work on her.
