Itchies are gone!

The medicine has done its trick and Savannah is no longer itching....whew! We have one more day to give her medicine. I am so glad she has gotten relief with the medicine!

The dr. wrote a prescription for Savannah and the triplets to be excused from swimming lessons due to the rash and the chlorine. I spoke to Jeanette, the director of swimming at the YMCA and she told me that they will give me a 2 week credit towards May swimming lessons-Yay! The girls will go back to swimming in a couple of weeks.
