Our Friends from Boston

On Wednesday July 1st our friends from Boston drove up to spend 5 days with us. They have 1 year old twin girls.

We grabbed our walkie talkies and gave them a car tour of our area. Nothing beats good old Cliff giving every little detail about the area on the walkie talkie tour. Beware, you might hear all about his life history on the tour too. God I love my husband, bless his little heart.

We ended the the day with making everyone homemade spaghetti and meatballs and my famous Kimberladas. Let's see if I get any questions about what Kimberladas are...
