The Tooth Fairy will be coming soon

Savannah has 2 loose bottom teeth and one of two teeth is very loose. She can push the tooth front and back with her tongue. I imagine she will be losing the tooth any day now.

She also has a loose upper tooth but I think we have a few months yet to see that one really working its way out. I bet by the time she starts Kindergarten in the Fall she will have 2 or 3 teeth missing. Wow, that is a lot of teeth she will have missing!

Yesterday we talked about what happens to a tooth that comes out, that a new tooth will come in to take its place. She asked where did the new tooth come from.

I told her about the Tooth Fairy and she is so excited that she will have the Tooth Fairy come in the middle of the night and take her tooth from under the pillow and replace it with money. She asked where did the Tooth Fairy come from and where does she live. I told her the Tooth Fairy lives in Tooth Fairy Land and that is where she comes from. I told her the Tooth Fairy looks just like Tinder Belle.
