Baby Sitters

This section is an area to promote the girls that have done such a wonderful job in caring for our children. If you have needs for baby sitters feel free to look here and contact one of the girls we have used ourselfs. We are doing this to help the Gals that we believe in and care for.

We can act only as a reference as to how they have cared for our children and in no way are to held responsible for your children. Remember we are only vouching for the relationships they have created with Kimber, myself and our children. You would be responsible for your own relationships with any girls you interview because you learned about them here.
