Coldstone Ice Cream

Last Thursday 7/16, I took the girls and Mindy to Coldstone Ice Cream. It was all of the girls first time. What makes Coldstone so special is you can choose from about 15 different flavors and then they have over 100 different toppings and you make your own creation. So you tell them what kind of concoction to make and they mix it all together on a frozen slap right in front of you.

The girls had a blast picking out their own ice creams - especially Mindy. She was so excited.

It has been so hot here, like 95 - 100 degrees so the ice cream outing was perfect. Some friends of ours joined us - Corrie and her kiddos.
