Jones Bugs for Halloween

I have to say the city of La Habra had the cutest bugs for Halloween!! Savannah was the queen bee, Amanda was a butterfly, Miranda was a bumble bee and Maryssa was a lady bug. I made all of their costumes. They had cute too too's. They looked so cute!!

We took them trick or treating in the neighborhood at about 6:00pm. I went with them for about 20 minutes than I ran home to give out candy. They were with daddy and got back at about 7:30. They came back with boat loads of candy!!

I would say we had about 120 trick or treaters visit our house. There were some awesome costumes. Some teenagers came to the door and one of the girls was a pick and was holding a shot. She said she was "Swine Flu". I cracked up and had to take a picture of her. Too funny!!
