Maryssa and speech

I met with Maryssa's case worker, Melanie, with Regional Center Early Intervention. Maryssa has been approved for in-home private speech therapy once a week for an hour by a well known speech therapist in the area, Erica McBride. She receives therapy every Tuesday at 5:30pm one - one with Erica. I will feed the girls while Maryssa receives therapy. This will be a good thing that way Maryssa will be able to focus and not be distracted by her sisters. She was supposed begin Nov. 18th but we had an appointment glitch so we will begin Nov. 25th.
