Miranda's Progress with potty training

Miranda is now interested in going pee pee and poop in the toilet. She still loves her potty chairs, but I would say once or twice a day I might see her on the toilet.

I saw something hysterical a few days ago . Miranda came to me and said mommy, I pooped!! So I went into the bathroom to empty out the potty chair. Guess what I found!! Not one, not two, but all THREE potty chairs had poop in them!! Miranda puffed out her chest and proudly said, I pooped in all 3 potty chairs Mommy!! I was cracking up so hard. I had to take pictures.

Miranda wears panties at the house during the day. When we are not home, she wears a pull up but has not had an accident yet in her pull up. At night she wears a pull up and she still pees in her pull up at night. So she will still be wearing pull ups at night, but maybe during the day when we are not home I will try her wearing panties and see how she does.

I have a really cool travel potty chair in the minivan and they love using it. I usually have them use the potty chair in the minivan before we go into the store or to the park. I bought this travel potty chair when I was potty training Savannah when she was 2-1/2 and it was so helpful. This is a link where I purchased the potty chair so you can see what it looks like.
