Categories: Mom's Corner

Today I had a nice discussion with a mom of triplets and an older sibling

While I was pregnant with the triplets, I was in contact with a wonderful lady who is a mother to triplets that were born in 2004 and an older sibling 2 years older than the triplets. Today I re-visited her website and I decided to e-mail her. I was compelled to tell Lesa Rhoton how much I appreciated her friendship and I gave her an update on all of us. I also shared a common experience we had with our Baby Amanda and her Baby Nadia with our triplet pregnancies.

It just amazes me how much I understand this wonderful woman. I can really relate and identify with everything she describes with her experiences with triplets and an older sibling. For any of my friends in my multiple mom's club that would be interested in checking out her website it is http://www.angusandthetriplets.com/ What a brilliant website!!
