We get to make pizzas??!!!

This was our end of school year celebration!!

I organized a fun tour of John's Pizza in Buena Park. It is like Chuck E. Cheese on steroids. They have an all you can eat buffet and indoor rides such as the scrambler, bumper cars, airplane ride and indoor playground, plus lots of fun games to earn points to get prizes.

Liz and her son Daniel, and Corrie and her 5 kids met us at John's Pizza at 2pm. We got a private room and we were surprised when they told us that we got to make our own pizzas!! So we all made our pizzas and while they baking, we went to the buffet tables to get salads, pastas, etc. We were all starving as none of us moms had breakfast or lunch yet.

We were given cards that had points on them and the kids could redeem them on the rides and games. After we ate, we ventured out to the game room and rides. All of the kids rode on the airplane. The triplets were not tall enough to do the bumper cars, so Savannah did that. She was not tall enough to do the scrambler ride.

Then the girls played in the indoor playground for quite a while. Savannah and I went to play some games to earn points to win some toys.

After 3 hours since we arrived, we cashed in our points and the girls got dinosaurs, heart necklaces and Dracula teeth.
